

Corporate Gift

We specialise in supplying luxury corporate hampers and have a large number of satisfied corporate clients. Whether you want to enhance current business relationships, acknowledge staff achievements or to simply send a corporate thank you gift you can trust James Whelan Butchers to provide the perfect hamper to fit the occasion.

Each hamper contains a piece of Dry Aged Angus Striploin which comes from our own farm. Superb tasting sweet Tipperary Beef is our flagship food, enjoyed by critics and dignitaries for its unique tenderness and taste. Carefully selected and then dry-aged, there is no steak to match this.

To cut this striploin into succulent steaks we are also enclosing a butcher's knife.

Season these striploin steaks with some organic whole black peppercorns and some rock salt. Healthy and hearty, products full of flavour are what we deliver. Growing ingredients organically helps keep our earth healthy too!

To compliment the steaks there are two bottles of wine from the Waterford Winery. These wines are crafted with food in mind and the pursuit of refinement, finesse and elegance are the challenges that are taken to create this style of wine.

All of these arrive in a temperature controlled wicker picnic basket. The result is an extraordinary gift.
